Play Workshop

By Diane Peppetone with Kate Marianchild

Learn about oak woodland species in a fun multi-sensory, multi-dimensional way.

- | | |
|---------|---|
| 1:30 PM | Workshop begins! Meet the colorful plants, animals, fungi and lichens who live among the oaks. |
| 2:30 PM | Develop the play and create short speeches for your favorite creatures. |
| 3:30 PM | Perform the play for the public attending Oak Discovery Day! |
-

Passport Station Descriptions

A. Secrets of the Oak Woodlands

Hear stories about oak woodland treasures such as bushtit nests, silk moth cocoons, velveteen tarantulas presented in rich display by Kate Marianchild, author of *Secrets of the Oak Woodlands*.

Kate's book, oak charts, and close-focus binoculars will be available for purchase.

B. Let's use Acorns!

Join Diana Almendariz, cultural practitioner of Maidu / Wintun / Hupa / Yurok descent, as she hosts interactive activities including acorn gathering, grinding and flour tasting.

C. Oak Apple Discovery

Discover the wonders of oak apples (galls) and their hidden insects.

D. Writing with Oak Ink

Go back in time to write with ink made from oaks just as the ancient Greeks and Founding Fathers did.

E. Oak Personality Quiz

Find out how much you have in common with oaks! Take an interactive quiz to discover which oak species matches your personality and receive an honorary oak leaf button.

F. What Keeps you Rooted?

Discover more about yourself and your love of oaks by participating in a self-reflective activity and creating a piece of art in partnership with other attendees.

G. Squirrels vs. Acorns

How many acorns could you collect if you were a squirrel? Wonder no more!

H. Sacramento Tree Foundation & Tree Davis

Take home coloring pages and "tree-sure" hunt gamecards and learn about local volunteer opportunities and teaching resources.
